Letter of Attestation

To Whom it May Concern,

This letter serves as an attestation that Wellnomics engaged Pākiki Security Limited, a specialist cybersecurity consultancy, to conduct penetration testing against their platform.

This penetration test was performed between the 7th of July 2025 and the 18th of July 2025, following a methodology based on industry standards. The objective of the test was to identify potential security vulnerabilities within the system that could be exploited by a malicious actor.

Retesting of the application and the APIs was conducted in August 2025. All High and Medium severity issues had been resolved together with many of the Low severity issues. Two Low severity issues were identified as being partially resolved and one issue was identified as being a False Positive.

Please do not hesitate to contact me at glenn@pakiki.co.nz if you have any questions.

Ngā mihi,

Glenn Sparrow
